Project name	Skill/Job Recommender Application
marks	2 Marks

Job skills recommended application

Problem Statement :

- The dataset used for this research are sourced from Stack overflow survey data which is modelled as the user data for this research.

- Another dataset was created by web scrapping the Job board Using R programming language to fulfill the road map of this dissertation.

- The research question proposed by this research is "Can an efficient recommender system be modeled for the Job seekers which recommend Jobs with the user's skill set and job domain and also addresses the issue of cold start?".

- To answer the research question, below are the objectives that need to be satisfied with going forward
